35311 PROFITABLE PODIATRY PRACTICE - UNDER MANAGEMENT

An exceptional opportunity has emerged to take ownership of a thriving, fully managed podiatry practice in a bustling Melbourne suburb! This well-established and profitable business is the perfect investment for an entrepreneur or healthcare professional seeking a successful venture without the need for hands-on involvement.

Renowned for its excellence in patient care, the clinic boasts state-of-the-art facilities and cutting-edge technology, giving it a competitive edge in the market. Ideally positioned among other healthcare providers—including a medical centre, pharmacy, chiropractic clinic, and dental practice—it benefits from strong referral networks, excellent visibility, and easy accessibility.

The practice is fully systemised and operates seamlessly under an experienced team of podiatrists and administrative staff, ensuring exceptional service delivery and a smooth transition for a new owner. With a well-established structure in place, you can focus on growth opportunities rather than daily operations.

With demand for podiatry services on the rise, significant expansion potential exists. Plans are already in motion to enhance the clinic's capacity, including the addition of a new treatment room to accommodate more clients and boost revenue. A strong online presence, glowing customer reviews, and an intuitive website with integrated online booking ensure a steady stream of appointments and continued business growth.
